J. RUSSELL SPALDING'S,

CELEBRATED HIGHEST PREMIUM

Cythrean Hair Oil, or Wash,

COMPOSED OF

ROSE MARY

AND CASTOR OIL,

FOR

Beautifying, Restoring, Embellishing and Curling the Hair.

THE virtues of Rosemary and Castor Oil are so well known that it only requires a recommendation—being two of the most common articles in use. They are here combined in chemical and intricate process, from the receipts of America, and invariably warranted.

1—To curl the hair beautifully.
2—To remove dandruff effectually.
3—To prevent the hair from falling off.
4—To promote a luxuriant head of hair.
5—To give it light hair a rich golden color.
6—To prevent the hair from being dry or greasy.
7—To give to Whiskers a beautiful appearance.
8—To prevent the hair from falling off on the hair.
9—To prevent the hair from falling off on the hair.
10—To cure diseases of the Scalp.
11—To cure the worst headaches.

CAUTION—Purchasers should be careful to get SPALDING'S, and no other, as worthless greasy imitations are sold, called Cream of Rosemary, Lactine, etc.

AGENTS in every Town, Village and City in the United States and Canada, are wanted to take charge of the sale of the above articles. To such and every Agent will be furnished with books of full directions, and with address printed on them, by applying to the sole Manufacturer and Proprietor,

J. RUSSELL SPALDING,

Chemist and Apothecary,

No. 1 (old) Whitehall and Retail Depot, 93 Fremont Row, opposite Boston Museum, Boston, Mass.

Very large bottles, sent in a neat box for 25 cents, by agent by appointment for Bangor and Vicinity,

JOHN LOWELL,

AYER'S

CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Of all the numerous medicines, found worthless, or of very valuable, for the cure of pulmonary complaints, nothing has ever been found which could compare in its effects with this Preparation. Others cure some cases, but at times and in all diseases of the lungs this Cherry is here medicine can give relief, this will do it. It is pleasant to take, and perfectly safe in every case with the directions. We do not advertise for the infirm, many of those that have tried it but those who have not. Families should always know its value as it may be without it, and in timely use, they may be saved from the dangerous consequences of Coughs and Colds which neglected, ripen into fatal consumption.

The Diploma of the Massachusetts Institute was awarded to the preparation by the Board of Judges in September 1851; also the Medals of the three great World's Fairs in this country, also the Diploma of the Ohio Institute, for which it has been given to the Cherry Pectoral by their Government in consideration of its superior excellence and usefulness in curing affections of the lungs and throat.

The following opinion is added on the long experience of a prominent Physician of the Portland City Hospital:

ST. JOHNS, May 8, 1851.

DR. AYER—

Dear Sir—I have tried your CHERRY PECTORAL in my practice with a confidence which I perceive from its composition it cannot but merit, and the cures the cold and cough to which we are subject, are peculiarly

It is equal to any I have discovered, nor do I know a better remedy can be made for the diseases of the Throat and Lungs.

J. J. BURTON, M. D. F. R. S.

See what it has done for a weakened patient, not in the following cases, but a thousand more:

SEGUIN, July 8th, 1851.

DR. AYER—In the month of July last, I was attacked with Bronchitis in the mines of California. I went to San Francisco in hopes of receiving benefit from a change of climate and diet, but my disease had not been followed by a severe cough—and which at last finally started for home, but received no benefit from the voyage. My cough continued to grow worse and when I arrived in New York, I was at once informed by my acquaintances was victim of consumption. I must confess that I gave an sufficient reason to doubt what my friends all believed. At this time I heard of your highly invaluable medicine with the determination of deriving any benefit from its use—for now, I had not received these Medicines and I not regard it my duty to state to the afflicted, through you, that my health in the space of eight months, is fully restored. I attribute it to the use of your Cherry Pectoral.

Yours truly, WILLIAM W. SMITH.

WASHINGTON, D. C., April 12, 1849.

Dear Sir—Feeling that I have been spared from a premature grave, through your instrumentality by the use of your medicine, I will take the liberty to express to you my gratitude.

About a year ago the alarming symptoms of Consumption had reduced me too low to take anything like hope, when my physician brought me a bottle of your Pectoral. It seemed to afford immediate relief, and now a few weeks time has restored me to sound health. I feel it my duty to others what it has done for me, you are at liberty to make the publication of my case.

I remain willing to your obedient servant, Esq.

Very respectfully yours,

JOHN J. CLARKE, Rector of St. Peter's Church.

With such assurance and from such men, no stronger proof can be adduced unless it be from its effects upon

ZINC PAINTS.

WARRANTED PURE

The New Jersey Zinc Co.,

WAREHOUSE 35 DEY STREET,

NEW YORK,

ARE prepared to supply their Zinc Paints at the following prices:

No. 1 White, ground in oil, 8c per lb.
No. 2 White, ground in oil, 6c per lb.
No. 3 White, ground in oil, 5c per lb.
Brown and Black, ground in oil, 5c per lb.
Dry White or Zinc, 5c per lb.

WHITE ZINC PAINT.

After a thorough test in Europe and the United States, has been found to retain its beauty and protective qualities longer than any other paint. For whiteness and brilliancy it is unrivalled; it is free from all poisonous properties so common and dangerous in other paints; will cover, in equal weight, from 40 to 100 per cent more space than lead, and is, therefore, the cheapest paint in the market. As an inside paint it will not turn yellow, even when exposed to the sulphurous vapors of coal fires, or the foul air of stables. Their White Zinc ground in varnish produces the most elegant finish.

Brown and Black Zinc Paints

of a few hours furnish hard and durable coats on iron wood, brick, stone and other materials. Decks and are remarkable for their fire proof properties. They are specially adapted for marine purposes, having been found to resist the corroding action of salt water, so destructive to other paints.

Orders supplied in liberal terms by

MANNING & SQUIER, Agents,

45 Dey st. New York.

Also, for sale wholesale and retail by GEO. W. ROBINSON, Druggist, No. 4 South's Block, Agent for Bangor.

George Rummell's PHŒNIX ESSENCE OF COFFEE.

ONE package at 12½ cents will save you over 1 lb of Coffee. Thousands of families (not the poorer but also of the most genteel and rich) and many of the first physicians of this city and of other places where this Coffee is made, use this Essence in which when boiled, is a delicate, finer flavored, perfectly clear, and in every instance better than the best Java Coffee.

This Essence was awarded a silver medal by the American Institute of New York, also a premium by the Franklin Institute of Philadelphia, 1851, in both instances the highest premium for such articles.

☞ See the certificates in our circulars of Drs. Booth and Chilton two of the first practical chemists in the United States, also of several other prominent chemists.

HERE IS YOUR REMEDY!

HOLLOWAY'S OINTMENT.

A MOST MIRACULOUS CURE OF BAD LEGS, AFTER 36 YEARS' SUFFERING.

Extract of a letter from Mr. William Galpin, of 70, St. Mary's Street, Weymouth, dated May 18th, 1852.

To Professor Holloway.

SIR,—At the age of 71 my wife (who is now 61) caught a violent cold, which settled in her legs, and ever since that time they have been more or less sore, and greatly inflamed. Her ankles were distressing, and for months together she was deprived entirely of rest, and sleep. Every remedy that medical men advised was tried, but without effect; her health suffered severely, and the state of her legs was terrible. I had often read your advertisements, and advised her to try your Pills and Ointment; and, as a last resource, after every other remedy had proved useless, she consented to do so. She commenced six weeks ago, and strange to relate, is now in good health. Her legs are perfectly free from sores, and her sleep sound and undisturbed. Could you have witnessed the sufferings of my wife during the last 36 years, and contrast them with her present enjoyment of health, you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow creature.

WILLIAM GALPIN.

A PERSON 70 YEARS OF AGE CURED OF A BAD LEG, OF THIRTY YEARS' STANDING.

Copy of a Letter from Mr. Wm. Abbs, Builder, of Gas Street, Ramsgate, near Huddersfield, dated May 20, 1851.

To Professor Holloway.

SIR,—I suffered for a period of thirty years from a bad leg; the result of two or three different accidents at Gas Works, accompanied by scorbutic symptoms. I had recourse to a variety of medical advice without deriving any benefit, and was even told that the leg must be amputated; yet, being averse to that opinion, your Pills and Ointment have effected a complete cure in so short a time, that few will be found not witnessed it would credit the fact. [Signed] WILLIAM ABBS.

The cure of this statement can be verified by Mr W. P. England, Chemist, 15, Market street, Huddersfield.

A DREADFUL BAD BREAST CURED IN ONE MONTH.

Extract of a letter from Mr. Frederick Turner, of Postmaster, Kent, dated December 13th, 1850.

To Professor Holloway,

DEAR SIR,—My wife had suffered from bad Breasts for more than six months, and during the whole period had the best medical attendance, but all to no avail. Having before healed an awful wound in my own leg by your unrivalled medicine, I determined again to use your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use is really astonishing. I most strongly recommend them to all my friends.

[Signed] FREDERICK TURNER.

The Pills should be used conjointly with the Ointment in most of the following cases:

Bad Legs	Corns (Hard)	Scalds
Burns	Contracted and Stiff Joints	Sore Nipples
Bunions	Fistulas	Skin Diseases
Bite of Mosquitoes and Sand Flies	Elephantiasis	Scurvy
Coco-Bay	Fistula in Ano	Sore Throat
Chigo-foe	Glandular Swelling	Tumours
Chiggers	Lumbago	Ulcers
Chapped hands	Piles	Wounds
	Rheumatism	Yaws

Something for Everybody.

Mr. George B. Emerson, who for thirty years has been a popular teacher in Boston, delivered an address a few days since, before the Teachers' Institute, which contains some very valuable suggestions. Though the address is as to teachers, everybody should have the benefit of it. His ideas in regard to Physical Education; to study, and to thoroughness, will commend themselves to the good sense of all who have not fallen into the meshes of some notoriety seeker—who under the belief that he has discovered the Philosopher's Stone, is running into obscurity as fast as long legs and a galloping consumption can carry him. We copy largely from the address, not doubting that our readers will find in its usefulness a sufficient apology for our so doing.

PHYSICAL EDUCATION. You have always been hearing a great deal about Physical Education. Upon this subject allow me to think that my own experience gives some value to my opinions,—for I have been working for more than thirty years as hard every year, I suspect, as any one of you has worked any one year, and yet, in that time, I have been able, out of a broken constitution and the poorest health, to build up a strong and somewhat vigorous constitution and a cheerful health. My experience resolves itself into a few common-sense conclusions:—Do not over-work yourself; never hurry; when you are weary, rest; if possible, sleep,—sleep long enough at night to restore your powers;—when you have worn out your vital energy by keeping school, do not think you can use it over again in whisking, or any other laborious exercise. Above all—when you have done with school for the day, and shut your school-room door, shut in there all the cares, anxieties and solicitudes which have all day, been haunting you, like evil spirits. Go home free; not one of your pupils will be the better for your lying awake with anxiety about him.

One of the blessed instructions of the Saviour is—Take no thought for the morrow,—and this is one sense, it seems to me, in which we teachers are to receive this divine lesson.

It may seem hard to say to you, do not overwork yourselves,—when many of you have so much to do that it is almost impossible to get through without over-working. But I hope that one of the effects of meetings like this we are now holding, will be to shorten the daily sessions and to lengthen the vacations, particularly to shorten the season in the schools for the younger children.

The importance of active exercise to the teacher is constantly and, I think, sometimes excessively over-stated. When we have done our day's work, we have commonly labored enough. What we want then is air and sunshine and, rest,—refreshment. The greatest physical evil in our calling is that we are usually shut up, during the brightest and freshest hours of the day, from air and sunshine. The true remedy then is air and sunshine—not labor, for of that we have had enough.

As to diet; do not be afraid of wholesome food, of all kinds, in reasonable quantity. Within the same reasonable limits, do not be afraid of tea and coffee, which might with propriety be called the scholar's beverage. Above all things, avoid that foolish dream, of ignorance so gross as to see no difference between the Brahmin's constitution, formed by a residence of fifty centuries within or near the tropics, and that of the Saxon, who, experience has never known him, has been contending with the elements in a cold and severe climate 2-1, mens Grahamism.

STUDY. The second thing I have to say relates to study.

Lord Bacon says: "Studies serve for delight, for ornament and for use," and I am content to take the order as well as the substance of his remark. He adds: "Their chief use for delight is in privateness and retirement." You and I get completely weary,—worn out; and it is of no use, in that state of body, to attempt any severe study. We must then read only for delight and refreshment. For that purpose, let us read what we delight in most. Let us not be afraid of fiction, in prose or rhyme. From the earliest times, fiction has been one of the chosen vehicles of the highest instruction, and our Saviour himself has, in his parables, consecrated it to instruction, even in divine things. A good novel or romance is one of the best relaxations possible for the overworked brain. What more delightful than the amiable extravagancies and exaggerations of Dickens, with his true pathos and sympathy, and warm love of human nature, and his protest against oppression in every form, from that of the Court of Chancery to that of the vulgar schoolmaster in Do-the-boys Hall, or of the beadle in the parish workhouse! What, more restorative than to forget ourselves and all our troubles, while transported to the scene of the tournament at Ashby de la Zouche, or the conflict of heroes by the Diamond of the Desert!

Only let us take care not to degrade the imagination, which should be the handmaid of pure and ennobling thoughts, and, by reading the vile trash which comes to us from over the water, make her the pander of brutalizing appetites.

Next to that of mere amusement and recreation, there are three objects we should have in view in our reading and study.

The first is, to make ourselves familiar with the things we are teaching.

The next is to enlarge and strengthen our minds, and carry ourselves onward.

The third is to illuminate our minds.

The branches we are daily teaching are simply the most important for any person to know.—They are those in which every one ought to be acquainted with. If they are not taught to reform our course of study. If we are teaching anything which it is not important that man and woman should be acquainted with, we are wasting the time of our pupils in learning and carrying on in teaching. We ought, therefore, to be teaching what every one should know. And we have opportunities which no other persons have, of learning and making ourselves familiar with those branches.—One of our first objects, then, will be to make ourselves as familiar as possible with the branches we are teaching.

Our aim should be to go behind, and above our text-book. If we endeavor to do this, we shall not be in danger of falling into a mere routine in teaching. If we do this, we are not teaching the same thing 300 times in a year, we are adding something every day to our knowledge, and every day we are communicating something new to our pupils. I admit there is danger of our attempting at last, to teach too much. The first and most important thing is to make our pupils learn by their own study.

ADDITIONAL STUDY.—The next object we should have in view is to improve ourselves by pursuing some more additional study in the most thorough and exact manner possible.—Superficial reading amuses, and may instruct. But superficial reading does not elevate the student. It is thorough and profound study only which strengthens the mind, and enables it to soar higher and higher. Let there then be one study—onward—to which we will give our attention, naturally, severely and resolutely. Let us always have something, apart from the routine of our daily studies, to extend our knowledge, and gain for ourselves a wider and wider view.

What shall that be?

I say, in every case, First, that towards which we feel ourselves most strongly drawn. If we are inclined to language, let us study a language, but study it thoroughly. If we are inclined to mathematical science, and have learnt only the rudiments, let us study Geometry or Algebra, or even, if we have time, go on to the higher Geometry and the Infinitesimal Calculus.

If we have a fancy for the realms of nature which have been so gloriously opened to us by Agassiz, let us study some branch of Natural History. I cannot declare to you that delight and what health-fulness of spirit and of body I have myself derived from one or two studies of this kind.

If you incline to make nice distinctions study Logic. If you desire to elevate your taste, study Rhetoric. If you delight in the play of thought, read attentively the best Poets, not with an anxiety to be able to say that you have read so many pages or so many volumes, but to fill your mind with beautiful images. A few passages so learnt, that they will come to you in your weary hours, are more precious than volumes, of which you have only a dim and misty remembrance.

Every one of you who has a talent for form may learn drawing, and whoever has a voice ought to practice, to lead or join her pupils in singing hymns or songs.

Do not think it necessary to be a great student, in order to derive some of the greatest benefits from study. Study a little well. It is not the quantity, but the faithfulness and thoroughness which will give you the good you seek.

Another object in reading is the one pointed out to you by Prof. Felton. Read to liberalize your mind! Let those whose pursuits have been chiefly literary, take a point of studying science. Let those whose pursuits have been chiefly scientific, study literature.

Without this, no matter how distinguished you may be in your special pursuits, you will be little better than literary artizans. A man who knows only one thing, no matter what it is, is but an artizan. He is at best an artizan. Such a person can hardly help becoming a bigoted or scientific bigot, and looking down upon most incomparatively higher and wiser than himself, because they do not happen to be acquainted with his specialty. He can hardly comprehend how truly he deserves himself to be looked down upon by all liberal thinkers and scholars.

To this kind of absurd bigotry teachers have always been particularly liable.

Let us do something to avoid it.

I have only one thing further to say,—and that is,

What we ought to do for our own calling.

Has it learned Professor from Cambridge has shown you what a teacher used to be, and how he was regarded. English literature abounds in passages of a character similar to that he quoted, and there is doubtless something of the old heaven still remaining even here.

But it is in the power of those who fill the pulpit of my voice to put an end to it, at least so far as our city is concerned.

If the pupils of our Primary schools, of every Grammar school, of every High, and every Latin school, shall be able to look each upon his own teacher as a person of singular generosity, nobleness and refinement, and as one of the most agreeable, well-informed and well educated persons he has ever known, the children of the next generation will, I venture to say, regard the whole race of teachers with very different feeling from those of the last generation, and will look upon the descriptions of the old pedantic teacher as witty perhaps, but very extravagant caricatures.

We have also some special work to do for the advancement of the art of teaching.

Many of the processes and methods of teaching, especially in the instruction of young children, have seldom received the attention of intelligent persons. These methods are doubtless in many cases good, and all are capable of improvement. This is especially the work of female teachers, for whom, wisely and naturally, the business of the elementary instruction is almost universally committed.

It is expected of teachers that they should teach the elements of many more things than they now teach. The constant advance of science demand this. But how is this to be done, when they have already as much as they can do?

Time is to be made for this instruction in two ways:

First, by omitting many of the details in geography, for example, with which the memory has been the only loaded, many ingenious processes in arithmetic, and many useless minutiæ in grammar; and secondly, by improving the methods of instruction.

Mr. Emerson is not willing to be understood to say anything against exercise. On the contrary, much and somewhat severe exercise in the early part of the day, in the open air, together with the frequent use of cold water has always been an essential part of his system. He would only caution teachers against supposing that they can profitably take active exercise, when the system is already exhausted by exertion.

We would suggest, however, for the honor of all concerned, that those who introduce strangers to those excellent schools under the charge of female teachers, that they carefully abstain from referring them among other claims of the scarcely wages which are paid to them faithful, unremplaining and patient teachers, who is the best and the foundation of all, that is desirable and good in our school system. This is as unlike that of those soldiers who do the work, but are demanded of the glory and remuneration which is rightfully their due.

Mercury.

We agree with the Mercury, that the wages of female teachers, in this city, as elsewhere, are meagre, and we should be willing to do battle in their behalf until their compensation should be proportionate to their merits, if we could see where the means of increasing it is to come from. The city is taxed largely for the support of the schools—not too largely, for we are not of those who object to very liberal appropriations for educational purposes—and the wages paid to female teachers are as liberal as the appropriation will allow. If the appropriation could be increased for the purpose of increasing their wages, the object would be attained. This can only be done by bringing about a change in the public sentiment in regard to the wages of females. The idea is, that females are compelled to work for low wages or starve—therefore they must be kept on low wages. The Mercury has labored with considerable assiduity to bring about a change to put the compensation of female teachers on a par with wages, but we fear it will not succeed until a better public opinion in regard to the wages of female generally.

There has been an improvement, however, in the compensation of female teachers. They [illegible] to twenty dollars a month and that is more than [illegible] to be [illegible] somewhat [illegible] by [illegible] the mercy. But gentlemen of the Mercury, we will see for you, bring single, get married, to adjust the things. It is not for us to advise you, but we should be pleased in the matter, that you might have to mourn over your lonely situation a longer time than you will if [illegible] agreeable, female, the Ladies have [illegible] promise that pay better than being [illegible] editor!

BOSTON CHEMICAL

WASHING POWDER!

BY the use of which washing is made pleasant and easy. This Powder prepared by a practical Chemist, is a superior article for washing Clothes. The process of using is simple and easy, and cleanses without injury to the finest fabric. One Package of the Powder makes two gallons of Soft Soap superior in quality for all domestic uses. Nothing exceeds this Powder, after having been made in Soap for removing grease spots from woolen clothes and carpets. Directions on each Package of the Powder, which, if followed, will give after a fair trial, general satisfaction.

COOKING STOVE

THE best Cook Stove ever introduced to this or any other people.

Having secured the sole agency of this very desirable Stove, I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for this eastern market, by those experienced and expert Stove manufacturers' Messrs. Eades & Whittier, who know, and have appreciated the wants of this enlightened people. It is now offered to the public with the fullest confidence in its merits, and its superiority over every other Cooking apparatus ever introduced. Its conveniences for Boiling, Broiling, Frying, &c., are not surpassed, and its extensive and beautiful Oven for Baking and Roasting, will at once recommend itself to the Ladies. One very important feature is, it has very stout and smooth castings and being manufactured in this city, can at all times be repaired, if ever necessary, at a trifling expense without subjecting one to wait for castings to be ordered from New York, Rhode Island, or elsewhere. Every Stove is warranted one year, but one not giving entire satisfaction may be returned and the money will be refunded after 30 days trial.

—ALSO—

A great variety of other patterns of cooking Stoves, such as the

Our State, Bay-State, Empire State, Granite State, State of Maine, &c.,

All or any of which will be sold at extremely low prices.

Elevated Oven Stoves—Rumpler's and 4 Boiler and two Oven—Boston two oven Stoves, Forrest-Queen, &c—and (that very beautiful) pattern of Cottage Parlor Cook Stove, and in fact every variety of Stove for Cooking or warming, worthy of notice, can be found at the Central Street Stove and Furnace Depot, No 15, 17, and 19.

DR. FONTAINE'S BALM OF A THOUSAND FLOWERS,

An Oriental Toilet, the Nursery, for Bathing, and many Medicinal Purposes.

HIGHLY perfumed by its gay ingredients, Recommended by the faculty, almost every European city, and established under the patronage of almost every Physician in London and Paris, and thousands of individuals, who make daily use of it in New York, Philadelphia and Boston—it is the greatest luxury, a lady or gentleman could wish for the improvement of health, for comfort and personal embellishment, and its delicate, soothing sensation, and the delightful sweetness it imparts to the complexion.

We give a few of the prominent properties of the

Balm of a Thousand Flowers!

already well established by actual experience

FIRST—This Balm, removes every defect of the Complexion,

And establishes in its stead Beauty and Health, as the sun when both, by the changes of age, or freaks of nature, or disease, have been obscured and undermined—it cleanses the skin and draws to the surface all impurities, and leaves open the pimples and blotches, it also removes tan, sunburn, yellowness and freckles, imparting to the skin its original purity, and at unsurpassed freshness, rendering it clear, smooth, and white.

SECOND—It promotes the Growth, and increases the Beauty of the Hair, causing it to Curl in the most natural manner.

It cleanses the head from dandruff, giving vigor health and life to the very roots of the hair.

THIRD—It is a superior article for Shaving Cream, Pomatum, &c.

Being superior to all descriptions of Soaps.

And DENTIFRICE for cleansing the Teeth, it is by far the most wonderful of any compound yet discovered, preventing decay, relieving pain, tartar and canker, and renders the teeth as white as alabaster. For bathing, for soothing infants and for adults to promote sweetness of body, elastic ness, health and strength, and to prevent eruptions, this, (there is no article more suitable than the Balm. It may be used in cold or warm, hard or soft water.

PATENTS.

AGENCY FOR BUSINESS
WITH U. S. PATENT OFFICE,
WASHINGTON.

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of 1836.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, *whereby a Patent may be procured about one week earlier* the continues to (for warthem free of expense) to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and daily there are arrivals of persons in trouble in obtaining their patents. They are also aware of the advantage of *personally explaining* their inventions, and of consulting in respect to them, *matters in general of paramount importance in order to obtain correct specifications and claims.* The experience of *fifteen years practice*, at extensive collections of rare works, decisions, &c. on mechanical subjects, the Patent laws, and patents of different countries, collected at much expense during the long time this office has been established, together with assistance here kept of inventions patented at Washington, enable the subscriber to offer advantages difficult of attainment.

R. R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few if any persons acting in that capacity here who so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

Moore's Essence of Life.

THE Great Remedy for Coughs—Colds—Whooping Cough, and Consumption.—The Whooping Cough can be cured in a week if taken in the Commencement of the disease. Those who are usually the most afflicted, if they be checked in time, during the first stage of the disease by the use of MOORE'S ESSENCE OF LIFE, which is harmless—minds the good that it has performed in the past few years in pour-ing relief to those afflicted with the Whooping Cough and Bowel Complaints. Measure to cure it taken in season. If the dealer has a child afflicted with the Whooping Cough let him obtain one bottle and try it—and if he does not find it satisfactory to obtain another, persevering in its use until a cure is effected—you cannot help being satisfied for common Colds and Coughs it is as sure in the cure. Now why will you suffer when a cure can so easily be effected—why will you let your children die when a remedy can be obtained so easily. Look out and be not deceived by spurious articles, but inquire for MOORE'S ESSENCE OF LIFE, Hadley Mass—and sold by H. H. Hall, Bangor, Wm. Main, A. P. Guild, Bangor, Mc. L. Miller, North Parsonfield, and by the Druggists in nearly every town in Maine.

DR. CONINE'S SYRUP OF GINSENG AND MALVA.

THIS Medicine, depends more upon its own virtues than any other preparation offered to the public.

The recipe is from Dr. Conine a gentleman who travelled many years in China, and in the Islands, at that time he compounded the above, and it is potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

AFFECTIONS OF THE LUNGS.

But we know it particularly efficacious, in its assimilating

DISSOLVENT POWER,

by which it has since removed ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore an

ANTI-EXPECTORANT,

and from attestations, of trial here, it is now offered as Nature's kindest remedy for the removal of

CONSUMPTION,
WHOOPING COUGH, AND ALL COUGHS.

By precipitating the Phlegm instead of creating irritation by expectoration. It is soothing, and at the same time stimulating, it increases the general warmth, possessing the exhilerating qualities of the Tea Plant, which is one great cause of its universal popularity in all India, beyond the Ganges, and to an

UNPRECEDENTED EXTENT.

It probably has no equal, in the VEGETABLE KINGDOM as a

DYSPEPTIC REMEDY.

It is unequalled. Its natural genial warmth keeps the digestive powers in their tone, assisting all functions of the nerves, &c.

It will appear more Pleasant, Safe and Effectual than any Spirituous Preparation, for other Restoratives, and will make any experiments with the Fluid that the readers of this article will make with that view. For sale, as above wholesale and retail, at No 1 Kenduskeag Bridge.

SECRET OF BEAUTY.

HOW TO BE HANDSOME.

[Illegible] will be found [illegible] Address or send to M. LAVASSEUR, French Chemist, 40 Nassau Street, corner of Ann, New York—he will send the work by mail or otherwise.

PROOF, CERTIFICATES.

Copies of Letters received by the agent of M. Lavasseur from Miss A. L. Bennet, of Highland, Dutchess Co., N. Y.—The Recipe contained in M. Lavasseur's secret of Beauty are excellent. The directions for removing freckles are perfect, so also are the instructions about the teeth and gums.

From Mrs. Sarah Lyon, 620 Houston St, N. Y.—M. Lavasseur's instructions about making the skin soft and smooth, are excellent. I speak from my own experience. I am now over 50 years of age, and my skin and health are yellow and wrinkled. I tried M. Lavasseur's system and premises as printed in his Secret of Beauty, and now my skin is quite fair and smooth.

From Mrs. J. M. Agar, 236 Hackney St.—I must recommend M. Lavasseur's directions for Sweetening the Breath and Beautifying the Teeth. They have been adopted in my family with astonishing success.

From Mr. H. L. Smith, 96 Grand St. N. Y.—I have tried Mr. Lavasseur's plan for brushing the gums &c. with success, &c. The directions given in his Secret of Beauty, are worth a fortune to all who want whiskers, &c.

Mr. Stephen Stewart, 87 Newark, New Jersey, says that his eye sight is greatly improved by adopting M. Lavasseur's directions and treatment for weak eyes. His friends have also tried the system with great benefit.

From Caleb T. Sanford, 31 Canal St. New York.—I have been using your instruction for coloring the hair, and took your fifth more than I hoped for. The secret of Beauty is worth hundreds of dollars to all who want the hair colored.

From Miss Kate Townsend, Waverly Place, New York.—The directions M. Lavasse gives for removing superfluous hair are the best I ever tried. The plan is far better than any depilatory powders I know of.

Address or send to M. LAVASSEUR, French Chemist, 40 Nassau Street, corner of Ann, New York—he will send the work by mail or otherwise.
